## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1 – 17, drawn to a computer-implemented method for using predefined parsing information to analyze web site navigation data, claims 55 – 63, drawn to a computer-implemented method for analyzing interaction data for a web site, claims 64 and 65, drawn to a computer-readable medium and a method, respectively, for analyzing interaction data for a website, claims 70 – 76 and 77 – 81, drawn to a computer-implemented method for analyzing interaction data for a web site, classified in class 709, subclass 224, computer network monitoring.
  - II. Claims 18 - 47, drawn to a computer-implemented method for analyzing interaction data, claims 48 – 51 and 52 - 54 drawn to a computer-readable medium and device, respectively, for analyzing data, claims 82 – 83, drawn to a computer-implemented method for analyzing usage data, classified in class 715, Data Processing, subclass 733, for plural users or sites (e.g., network).
2. The inventions are distinct, each from the other because of the following reasons: the invention described in claims in Group II is claimed to be applicable for monitoring and analyzing interactions unrelated to monitoring and analyzing

Art Unit: 2155

interactions related to usage and navigation of multiple web sites, web pages or logical sites, unlike the invention described in claims in Group I.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. A telephone call was made to James White on February 11, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vitali Korobov whose telephone number is 571-272-7506. The examiner can normally be reached on Mon-Friday 8a.m. - 4:30p.m..
